

Thank you for taking our quick quiz to help you find your path to success and what Fixters products and services best suit you.

### Fixters Report Summary

You are almost ready to flip homes with Fixters.com. You do have most of the characteristics that lenders and contractors look for when partnering with house flippers and real estate investors. You have an acceptable credit score and you also have enough liquid capital as a down payment. What you are missing is experience, which most lenders are looking for on a fix and flip property purchase to reduce the lenders liability.

We believe you would benefit most from our Complete System. Fixters will provide you with a quality and useful education, house flipping leads, access to fix and flip financing, easy to use software, personalized coaching all designed to help you successfully complete your project(s) on time and on budget! Get Flipping Today!
